

# LASTING ELEGANCE

ENTRY DOORS 2016

# HMI ADVANTAGE

**HMI** is the one-stop-shop for your entryway needs, whether it's our Entry Doors; Aluminum Storm Doors; or Security Storm Doors. Our advanced production facilities make HMI one of the few companies that manufacture doors according to customer specifications. We are a *make-to-order* company treating each door as a custom door whether it is a standard size or not.

## **Lasting Elegance Steel; Regency & Aspen Fiberglass Entry Doors**

HMI's entry doors are designed to the highest standards of energy efficiency, security, and sturdiness without sacrificing beauty. They are available in: *steel* - smooth or textured finishes; and *fiberglass* - textured. Made to enhance your entryway and satisfy the unique taste of each homeowner, we offer a variety of rich colors with a comprehensive collection of decorative glass.

We set the industry standard for custom, top of the line entry doors. With over 80 available door styles in 5 arch top shapes, our entry doors can accommodate all homeowner needs and wants.

We offer the most secure entry doors on the market. Our steel and regency fiberglass doors have a 19" lock block with a 14 gauge steel reinforcement channel. Whether it is a smooth or textured steel the skin is 20-gauge. Our Aspen fiberglass collection boasts a 4" lock side stile with a 7 gauge steel plate embedded the entire length.

To deter rotting, the rails inside of our entry doors are composite. For optimal insulation our doors are injected with high density polyurethane foam filling every nook and cranny.

The vinyl thermal break on our steel doors also improves energy efficiency by controlling heat transfer. Thermally broken metal doors are insulated against heat and cold conduction. This is done by separating the outside metal from the inside with a non-conductive material (vinyl).

Whether you choose a steel or fiberglass door HMI exceeds your expectations of security, energy efficiency and beauty.

PROUDLY MADE IN THE U.S.A.

# SMOOTH & TEXTURED STEEL DOORS

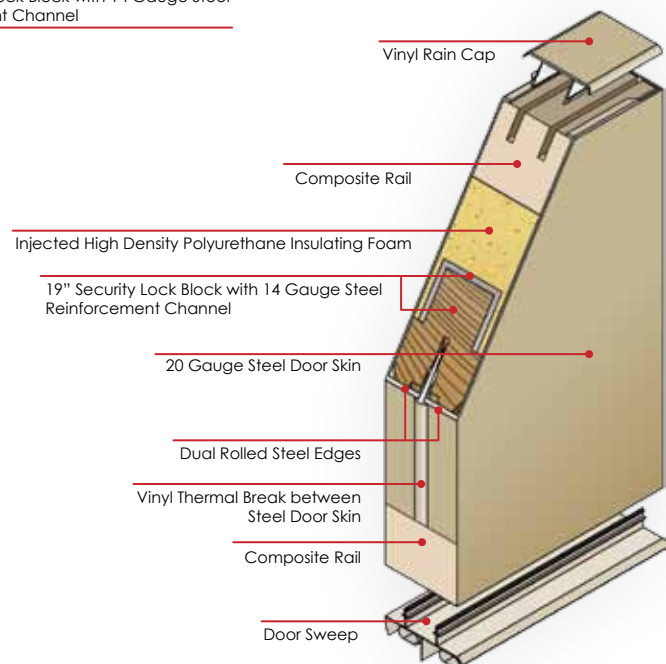

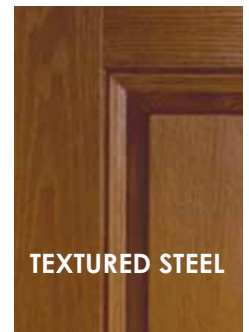

- All HMI steel doors are 20 gauge enhancing their security.
- Available in smooth and textured steel.
- The rolled steel door edges with a vinyl thermal break, the full length of the perimeter, prevents heat transfer.
- Composite rail at the top and bottom deter rotting.
- Injected polyurethane foam insulation fills every nook and cranny inside the door giving it optimal insulation.
- The 19" wood lock block with 14 gauge steel reinforcement U-Channel wards off break-ins at the lock location.

20 Gauge Steel door panels available in Smooth or Textured Surface

Injected High Density Polyurethane Insulating Foam

19" Security Lock Block with 14 Gauge Steel Reinforcement Channel

**Magnetic Weather-strip** for positive air seal along the header and lock side

**Q-Lon Weather-strip** for compression weather seal along hinge side

**Anti-Pry Ball Bearing Hinges**  
Available in Aged Bronze, Satin Nickel, Polished and Antique Brass

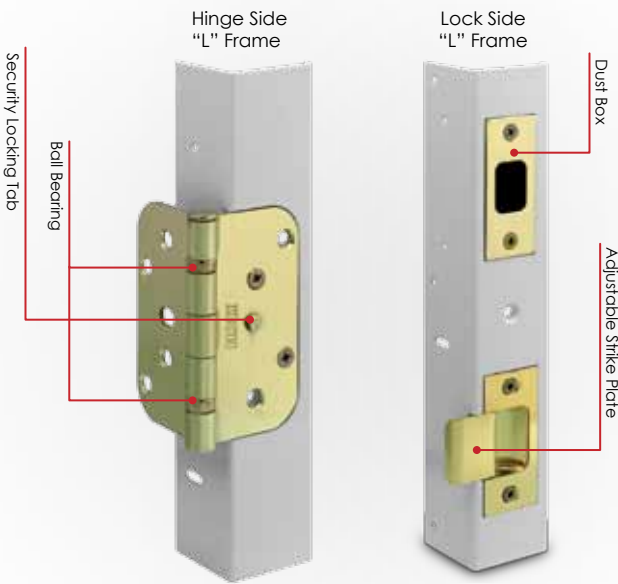

# JAMBS, CAPPING & REPLACEMENT FRAMES

## ARMORMAX JAMB™ Patented Optional

Replacement entry doors emerged during the 1970's. The steel "L" frame shored up the jamb giving it the security that homeowners desired. The ArmorMax Jamb™ System replicates that security in a pre-hung door by having an 18 gauge steel "L" frame embedded in the jamb on the lock side.

ArmorMax Lock Side

ArmorMax Hinge Side - Optional

## STEEL REPLACEMENT FRAME

Steel Replacement Frames are constructed of 18 gauge galvanized steel with 10 gauge plates located on the lock and hinge sides for extra reinforcement to help keep intruders out. All replacement frames are finished with a powder coating. White is standard.

## JAMBS

### Primed Wood Jamb - Standard

4 9/16" Prime Wood Jamb STD

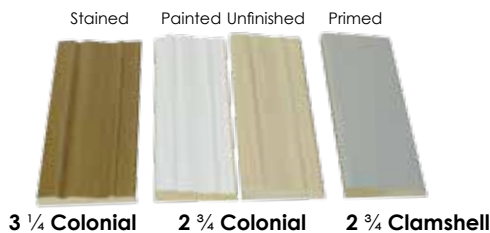

Optional: 5 1/4", 6 9/16" and custom sizes

Painted or stained to match interior and exterior of the door.

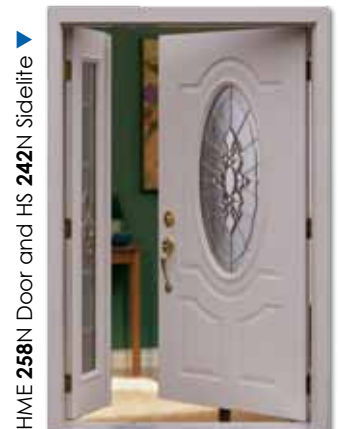

## INTERIOR CASING

Interior casing can be painted or stained; or come unfinished for customer to finish.

## FRENCH SIDELITES

See Page 54 For Details

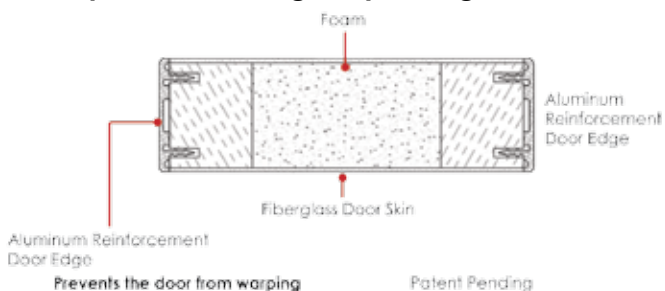

# REGENCY FIBERGLASS

## REGENCY FIBERGLASS

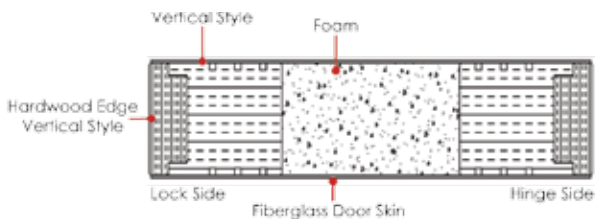

Our Regency collection affords authentic wood grain texture that rivals that of wood – without the maintenance of wood.

With engineered wood stiles and composite rails it is designed to deter rotting. As with all of our doors, the polyurethane foam insulation fills every nook and cranny inside the door giving it optimal insulation. For added security the ArmorMax™ jamb is optional for pre-hung doors. For replacement doors, the aluminum reinforcement door edge is standard which gives it strength and added security.

### Aluminum Reinforcement Door Edge For All Replacement Regency Fiberglass Doors

## ASPEN FIBERGLASS

The Aspen Collection boasts elegance, energy efficiency and enhanced security, an unprecedented combination in fiberglass doors. With authentic wood grain finishes – mahogany; or cherry; and oak – and six rich stain colors it is hard to bypass their beauty.

Security has always been a concern when choosing a fiberglass entry door. Not any more! Our Aspen Collection has a full length lock side stile. It is 4" finger jointed pine with a solid oak edge that has a 7 gauge steel plate embedded the entire length (patent pending). This adds increased security and stability to the fiberglass shell.

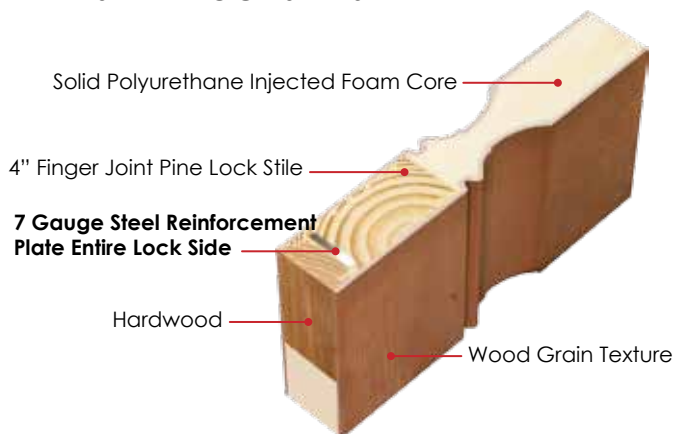

This combined with the ArmorMax Jamb™ System, for pre-hung doors, makes the Aspen Collection burglar resistant. No other fiberglass door on the market can meet the security level of our Aspen Collection.

The composite interior rails deter rotting. Injected polyurethane foam insulation fills every nook and cranny inside the door giving it optimal insulation.

### ASPEN - LOCK SIDE STILE *Patented*

### ARMORMAX JAMB™ *Patent Pending*

Replacement entry doors emerged during the 1970's. The steel "L" frame shored up the jamb giving it the security that homeowners desired. The ArmorMax Jamb™ System replicates that security in a pre-hung door by having an 18 gauge steel "L" frame embedded in the jamb on the lock side.

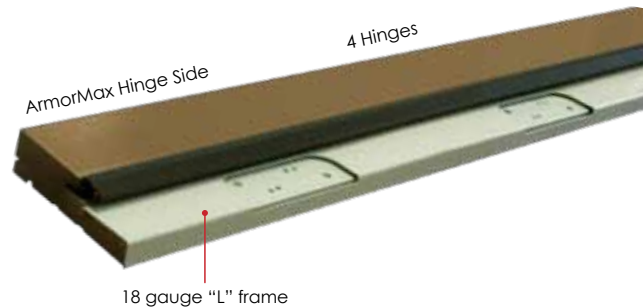

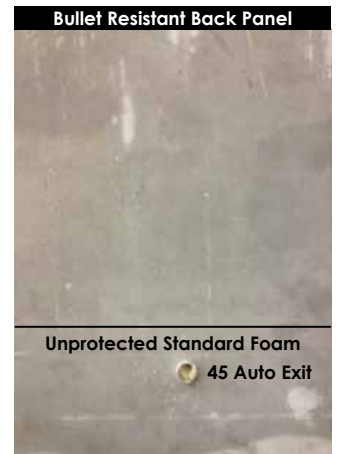

# NEW! BULLET RESISTANT

▼ HME 252-BR Door with 10-Point #40

**A Level 3** bullet resistant door panel does not have to look like battle armor. Our bullet resistant door panels are available in 13 beautifully hand crafted styles in steel or fiberglass and can be painted or stained. No one but you will know that the door is bullet resistant.

These door panels are rated: NIJ-STD-0108.01 Level IIIA Bullet Resistant; and ANSI/UL-752 Level 3 Bullet Resistant. This combined with our 10 point mortise lock and hinge side ArmorMax™ jamb make our bullet resistant door panels the most secure residential doors on the market.

## TRIM

Extruded Aluminum  
Flush Trim

No Exposed Screw Plugs

Exterior

Interior

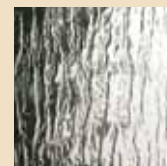

Our state-of-the-art glass trim offers low maintenance and durability. Full sun exposure? No problem. Behind a storm door? No problem... Made of extruded aluminum the glass trim will never warp, split or shrink. And, no more unsightly screw plugs. The continuous screw cover runs the entire interior face of the trim. Painted to match the door our flush trim gives the appearance of a trim free door.

# HM 400 SERIES - INTERNAL GRIDS

## TRANSOMS

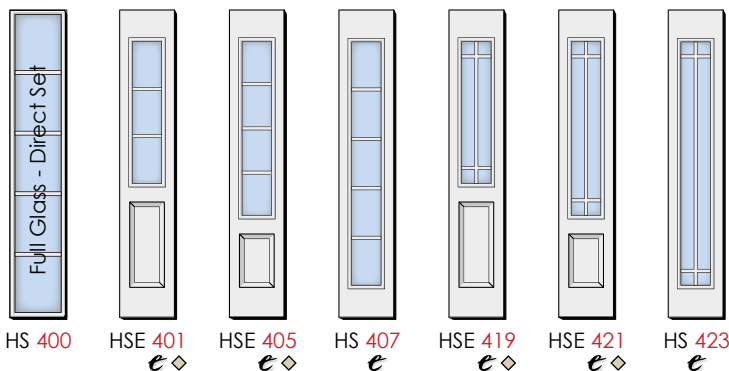

## INTERNAL GRIDS

Thermally sealed between two pieces of tempered glass, Internal Grids provide the same classic beauty as external grids, but with the added advantage of easy-to-clean glass. The internal grids are available in two different colors: White and Champagne.

# INTERNAL MINI BLINDS

Thermally sealed between two pieces of tempered glass, Internal Blinds (raise, lower and tilt) combine the privacy and light control of conventional blinds, with a hassle-free internal design requiring no dusting at all.

**Note:** There is a 1/4" gap between the edge of the blind - left, right and bottom - and the glass trim. This ensures proper operation when raising and lowering the blinds.

## INTERNAL MINI BLINDS WITH INTERNAL GRIDS

# CUSTOM DOOR CONFIGURATIONS

## Patio Door (with Single or No Screen)

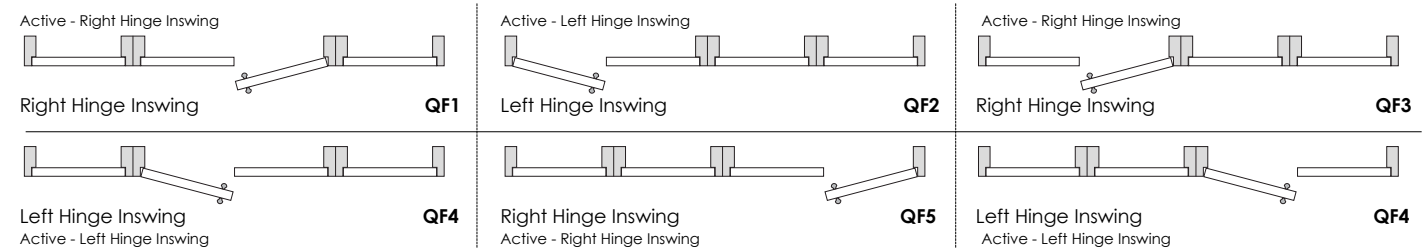

## Double Door and One Stationary Door or Sidelite Unit (with Double or No Screen)

## Triple Patio Unit (with Single or No Screen)

## Double Door and Two Stationary Doors or Sidelites Unit (with Double or No Screen)

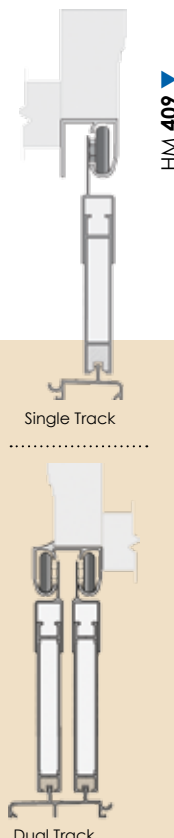

## SLIDING SCREEN

Exclusively manufactured by HMI, our Sliding Screen Door features a unique aluminum extruded design ensuring highest quality construction and durability. Unlike other sliding screens where all the weight is placed upon a floor mounted track, HMI's design uses a dual-wheel hung design allowing for a smooth and stress-free operation. (White is STD. Color is optional)

Single Sliding Screen configuration used for patio doors and Dual Sliding Screen configuration used for double doors. (Illustrated to the right)

### Screen Location

Inswing Patio and Double Door, screens are on the outside of the house. Outswing Patio and Double Doors, screens are on the inside of the house.

# SPEAKEASY

HME 246 Camber Top Door with Optional Speakeasy and Clavos ▼

Speakeasy door grilles are reminiscent of the days of prohibition and Al Capone. They embody that feeling of intrigue and are a special focal point for any entryway.

- Hand forged steel grille – 11 ½ " W X 15 ½ "H
- 1" insulated glass (stationary) – 6"W X 8"H
- Hinged interior door with easy to use latch
- Available in 23 powder coat colors to match the door. Standard is black.
- Optional 1 ¼ " Clavos (buttons)

Outside Closed

Inside Closed

Inside Opened 1" Insulated Glass

# 3-POINT LOCK - #44, #45, #47 & #48

Designed for security the 3 point mortise lock is the perfect solution for 8 ft doors. The top and bottom locks help to stabilize these oversized doors from warping and give a better weather sealing performance.

- The top and bottom  $\frac{3}{4}$ " backsets are passive until the deadbolt is engaged.
- The 1" deadbolt backset is engaged by turning the key on the outside or thumb turn on the inside. When the deadbolt is locked it automatically activates the projections in the top and bottom locks to become a 3 deadbolt locking system.

**The lock with the click**  
Automatic latchbolts  
projection from 10 to 20mm

- The stainless steel lock faceplate runs the full length of the door.
- The Allegro, Berkeley, Capri, and Salem lever handle sets are available in single cylinder. See available finishes under each lock set.

# 10-POINT LOCKING SYSTEM - #40

## *Home is our safe shelter*

It is a place where we find comfort. It protects our possessions, but more importantly it protects you and your family. Unfortunately, many homes are not as safe as they could be. Every 14 seconds a home is burglarized. In more than 50 percent of all residential burglaries, entry is gained through a door. High quality locks and key control are your first line of defense against a break-in.

- 10 horizontal backsets, the center four have a 7/8" deadbolt extension, the top and bottom sets have 3/4" deadbolt extension
- 10 Gauge steel strike plate the entire length of the lock side
- Anti-pick and anti-drill proof cylinder
- European security keys can only be duplicated through HMI Doors by using a supplied security key card
- Concealed, tamper-proof deadbolts
- Available in replacement and new construction
- Available in doors up to 96" in height
- Available in: smooth and textured steel; and textured fiberglass doors
- Locks are factory installed

Existing unsightly secure door  
HMI 10-Point will replace this

# FRENCH SIDELITES AND QUICKSHIP

French Sidelites work just like our Double Doors, another innovative option by HMI.

Hinged on opposite sides of the jamb, French Sidelites allow for the sidelite and door to be opened simultaneously, providing a wider opening.

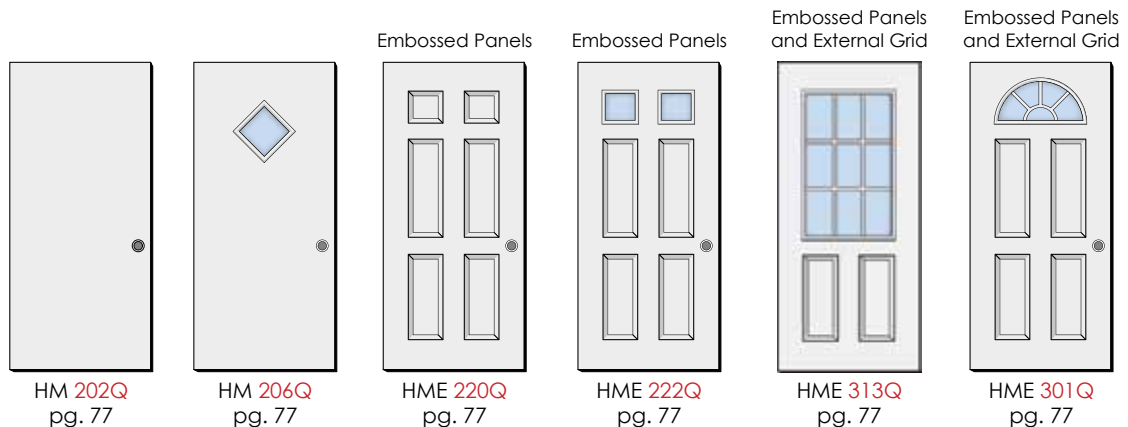

Enjoy the beauty of a classic door and sidelite with the practical space to move household appliances and furniture through.

## HMI QUICK SHIP DOORS

Available in 5 business days or less – Quick ship doors are constructed of smooth 20 gauge steel; painted white; can be either inswing or outswing; are available with a steel replacement frame or 4 9/16" new construction jamb; have clear glass; and polished hinges standard (other hardware finishes are optional). Available sizes are listed below each style Quick Ship door.

| Dark Mahogany                                                                      | Fruitwood                                                                           | Rosewood                                                                            |

**Note:** These sample colors do not accurately reflect actual painted/stained or powdercoated surface colors due to limitations in the printing process. Please see your sales representative for HMI color chips.

HMI steel entry doors are 20 gauge galvanized to A40 and chem treated to prevent rusting. HMI steel and fiberglass doors are first primed with a durable undercoat that is oven-cured for lasting resiliency.

**Paint** - A final paint finish is applied to the doors and oven-cured a second time forming an enduring lustrous look.

**Stain** - Hand applied to textured doors to give a wood grain appearance, it is then top coated with a 2-part clear urethane protective coat containing a UV inhibitor. Then it is oven-cured a second time forming an enduring lustrous look.

**Powdercoat** - Aluminum and security storm doors are chem washed then oven dried. The powdercoating is electrostatically applied and double baked to create a durable resilient finish. Powdercoats have a glossier sheen than do paints. For storm doors within 1 mile of shore line it is recommended to have: security doors zinc plated and aluminum storm doors chromated.

**P** - Matching Powder Coat finish to match Entry Door colors for Aluminum and Security Storm Doors

**X** - Paint Finish available on Textured Doors Only - Black

\* Due to possible heat buildup, the warranty for entry doors does not apply to the door or glass trim painted in these colors when installed behind storm doors.

# ALUMINUM STORM DOORS

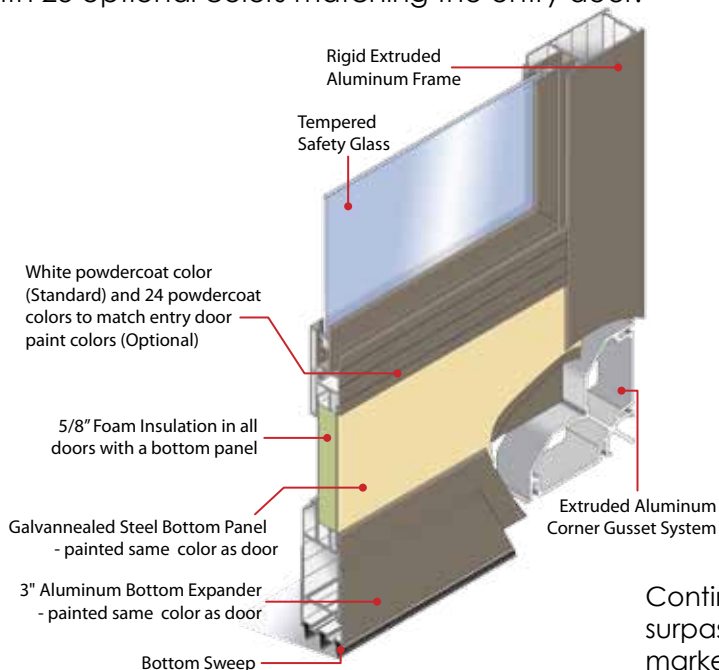

## Elite™ & Classic™ Storm Doors

HMI's aluminum storm doors balance function and style. Designed to protect your entry door from the elements, they are heavy duty and built to last. Our Elite™ line offers 12 door styles with 24 matching entry door colors to choose from. Whether it is a traditional full view or convenient self-storing storm door, you get what you want. Choose from traditional clear glass, grooved glass or glass with coming to get the look that fits your style. Our extruded aluminum arch top doors are pre-formed to fit your opening. All of our storm doors have tempered safety glass which is held in place using our proprietary cam lock system giving a secure fit.

Our Classic™ storm door line gives you the value you are looking for without sacrificing quality. Available in 12 door styles, white is standard with 23 optional colors matching the entry door.

### Self-Storing Glass

- Two moveable glass panels operate independently from top, bottom or both
- Glass frame designed to stay in track
- Nylon guide for smooth operation
- Removable screen
- Easy touch sliding glass lock

### Cam Lock System - No More Clips!

Offered exclusively by HMI, the Cam Lock System is one of the Elite™ and Classic™ Storm Doors innovations. It is free of loose parts and accessories, giving the homeowner problem free operation. All the hardware is hidden inside the door frame. One quick turn to loosen and another one to tighten! All you need is a penny.

HM-602 Camber Top

Continuous extruded aluminum corner gussets surpass the quality of other products on the market. Extending from the top of the door to the bottom (1/4" plated steel rod never sag or warp from the weight of the door.) Used for both

1/4" Plated Steel Rod

Extruded Aluminum

## SafeGuard™ Security Storm Doors

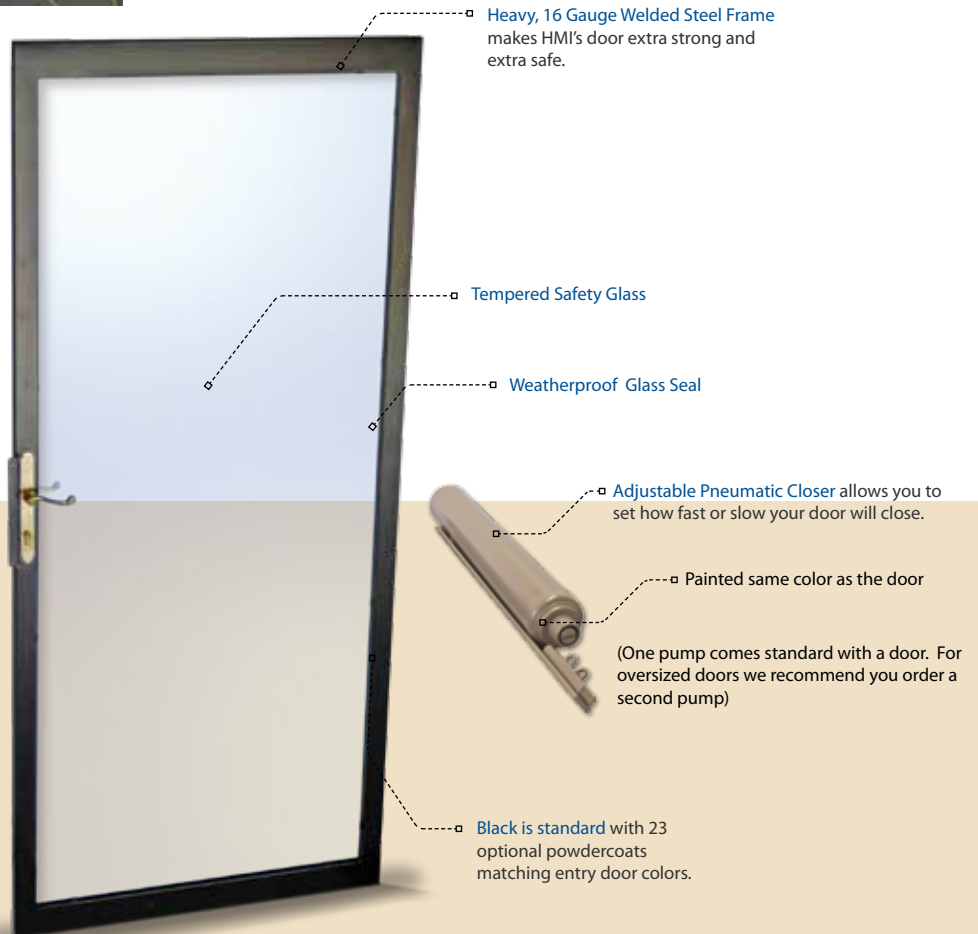

HMI's security storm doors create harmony between security and style. Heavy 16 gauge welded steel frame, tempered glass and 70 styles to choose from will satisfy your need for security while meeting your style standards.

Our continuous extruded hinges for security and aluminum storm doors are tamper proof giving the security and durability you seek. Extending from the top to bottom; reinforced with 1/4" plated rod; and nylon bushings they will never warp from the weight of the door. The adjustable pneumatic closer allows you to set how fast or slow your door will close.

Custom made to fit your entryway, our aluminum and security storm doors are available in 5 arch top shapes.

## Aluminum Extruded Hinges

Our hinges, manufactured exclusively by HMI, provide the security and durability of anything else offered on the market. From top to bottom, and reinforced with a 1/4" plated rod and nylon bushings, our extruded hinges will support the weight of the door. (Painted same color as the door).
