

# TORREFIED – THE REMARKABLE IMPERMEABLE DOOR

The Torrefied Door Collection is the first of its kind in the wood door industry to undergo a protective torrefaction process, an all-natural green process where wood is heated over time to eliminate its tendency to rot.

With the Lemieux Torrefied Collection, homeowners can enjoy the beauty of a wood exterior door without having to worry about restrictions or the effects of wear and tear.

Chemical-Free  
Torrefaction Technology

Tested In Extreme  
Weather Conditions

Resists Warping, Twisting,  
Rotting & Delamination

Unlimited Design  
Options Available

## SOLID WOOD CONSTRUCTION

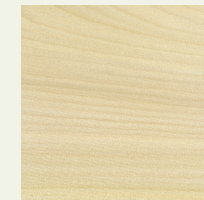

AVAILABLE IN SELECT  
WOOD SPECIES

Aspen

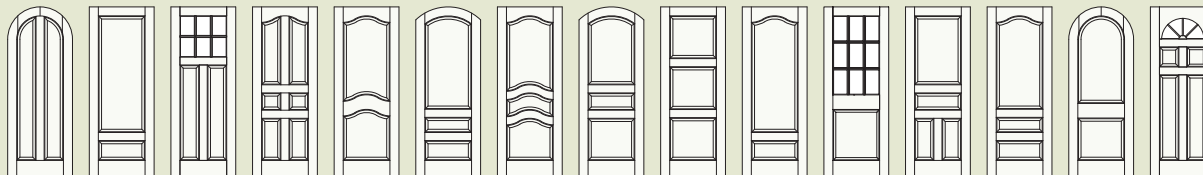

Douglas Fir

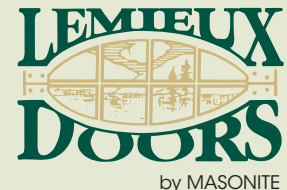

Poplar

Mahogany

See current catalog  
for full selection of  
door design options.

## TESTED TO THE EXTREME!

We stop at nothing to design a better door. In fact, we been subjecting one of our doors to a daily deluge of abuse since October 2010 – and we're still waiting for the twisting, warping or rotting to show. In addition to our stringent test chamber trials we let Forintek, the world's leading wood component testing lab, take their best shot. We'd be happy to share their remarkable test results with you!

**THE LEMIEUX TORREFIED SERIES.  
ANYTHING ELSE IS SIMPLY SETTLING FOR SECOND BEST.**

# TORREFIED SERIES

## CHEMICAL FREE TECHNOLOGY

**THERE'S NEVER BEEN A DOOR THIS GOOD. EVER.**

Torrefication is an all-natural green process whereby wood is heated over time in order to eliminate its tendency to rot. It also makes wood far more structurally stable, and highly resistant to heat, cold, and moisture!

**AN ALL NATURAL PROCESS**

## A 20-YEAR WARRANTY THAT'S AS DURABLE AS TIME. SO, MOTHER NATURE... BRING IT ON!

Every Torrefied Series exterior wood door carries a 20-year guarantee against warping, twisting, rotting or delamination!  
**WHO KNOWS, IT MAY EVEN OUTLAST YOUR HOME!**

## UNLIMITED POSSIBILITIES UNLIMITED DESIGNS

The Torrefied Series is available in each of Lemieux's 10,000+ design options - and our 4/0 maximum widths and 8/0 heights are fully guaranteed, with available matching exterior jambs, brickmoulding and T-astragals.

## IT'S OVER WITH OVERHANGS!

This may be the first time a door of comparable quality can be installed without the usual overhang requirements. A door built to face up to the elements; direct sunlight and extreme heat and cold. What's more it can be stained or painted in dark tints! **For the 20-year warranty to be honored, all six sides of the door must be sealed and maintained.**
