

POLYURETHANE CATALOG

SYNTHETIC SOLUTIONS FOR ALL YOUR MILLWORK & TRIM NEEDS

TABLE OF CONTENTS

**For quick and easy reference,
the **Fypon® Polyurethane**
Catalog is divided into
major categories.**

Pages 8-63

Window & Door Trim

- Crossheads & Pediments
- Pilasters
- Window & Door Trim
- Keystones
- Shutters
- Timber & Stone Window & Door Trim

Pages 152-169

Louvers & Gable Vents

- Decorative & Functional Louvers
- Louver Trim
- Timber Decorative & Functional Louvers

Pages 64-101

Mouldings

- Crown & Cornice Mouldings
- Flat Trim & Brick Mould
- Trim & Casing
- Dentil & Decorative Mouldings
- Plinth Blocks & Miterless Accessories
- Timber Flat Trim & Brick Mould

Pages 170-187

Balustrade Systems

- 5", 7" & 12" Balustrade Systems
- Stone Balustrade System

Pages 102-151

Decorative Millwork

- Brackets, Corbels & Dentil Blocks
- Gable Pediments
- Exterior & Interior Accents
- Timber Brackets & Corbels
- Timber Exterior & Interior Accents

Pages 188-199

Porch Posts, Columns & Post Wrap

- Structural Porch Posts
- Structural Columns
- Lamp Post
- Stone Half-Round Columns
- Timber Post Wrap

the literature section.

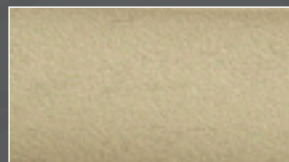

NEW THIS YEAR

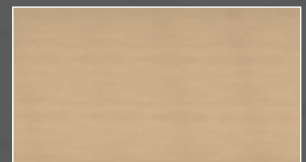

We have crafted interior and exterior products to complement today's most popular home styles, taking great care to stay true to architectural origins and historical detail. Be sure to refer to our new Style Guide for more ideas and inspiration, and for helpful information about the design hallmarks of architecture ranging from Georgian to Mediterranean, Arts and Crafts to today's traditional, and so much more.

STYLE

An eye for detail. A history of durability. The design expertise to benefit every project. Fypon delivers lasting style for homeowners, and helps builders add beauty to every home. From ornate to understated, vintage to modern, we've designed an incredible range of millwork products that transcend into timeless styles.

PERFORMANCE

Fypon polyurethane products differ from traditional building materials because they have a closed-cell structure. They cannot be penetrated by moisture or insects. So whether your project calls for functional or decorative pieces, you get added durability — without rotting, warping, cracking, chipping or peeling — and fewer call-backs. Along with superior performance, Fypon products are easy to work with. They do not require special tools for installation, and come ready to paint or stain.*

PARTNERSHIP

Choosing Fypon also means getting the service and support you need at every phase of your project. Beginning with planning and takeoff, we're a reliable partner all the way through project completion. And as an industry leader, we of course offer a Lifetime Limited Warranty* for homeowners.

* See www.fypon.com for complete warranty details, exclusions, and instructions on proper use of adhesives and painting.

FEATURES & BENEFITS

Lasting performance and minimal upkeep compared to other materials.

Lightweight and does not require special tools.

*Polyurethane smooth or textured — comes pre-primed and ready to paint or stain.**

Our closed-cell polyurethane is resistant to insects.

Ideal for moisture-prone interior spaces like bathrooms, kitchens and basements.

Beautiful and durable in all seasons, withstands the elements better than traditional materials.

* See www.fypon.com for complete warranty details, exclusions, and instructions on proper use of adhesives and painting.

PROJECT QUOTING SERVICES

- Help with completing quotes for any project — large or small, standard or custom contact: projects@fypon.com
- Specialized construction software creates accurate, digitized takeoffs from your construction prints
- Request for Quote: Pricing for one part or multiple parts to meet the needs of small projects
- Large Project Quoting: From single-family homes to commercial buildings
- Easy-to-read Project Quote Package for large projects: Quantity pricing, breakouts that show parts in context of the prints, installation information, warranty information and more drawings created on as needed basis

CUSTOM SERVICES

- Alter a standard part to match aesthetic and dimensional specifications
- Additional Sizes: Such as crossheads in custom widths
- Add keystones, dentil trim and bottom trim to standard parts
- Route channels in standard parts, such as window and door trim and louvers, to accept siding
- Turn your sketch and dimensions into almost any millwork or trim product imaginable
- Custom shapes, sizes and profiles for that special job
- Authentic replicas for historical restorations
- For assistance contact CPS@fypon.com

Exceptional Entrances

Window & Door Trim

Adding Fypon® window and door trim takes the look of a home from ordinary to extraordinary. Many pieces are designed to work together, and some can even be ordered moulded as one piece to further speed installation. From pilasters, pediments and crossheads, to arches and panels, our architectural options easily enhance a home's design. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: MLD234-16

How to Use This Section

The products in this section of the catalog are organized by size, from smallest to largest. Where applicable, part numbers are shown for fabricated products with attached accessories, and matching unattached accessories are referenced or shown with the product.

How to Order

Window Trim

To order window trim, first measure the window unit to be trimmed. Next choose the desired products and accessories to complete the look.

Door Trim & Entrance Systems

When ordering door trim, first measure the door unit to be trimmed. The unit can be measured with or without brick mould; however, the brick mould is essential when using a storm door. Next choose the desired pilaster style and size. Finally, choose a pediment or crosshead that is wide enough to span the opening plus the brick mould and pilasters (see example). Add desired accessories to complete the look.

Window & Door Trim Accessories

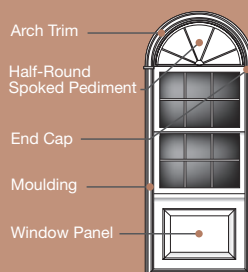

Keystones, dentil trim, trim strip and bottom trim accessories are available attached to standard products as fabricated products. Keystones can also be ordered as unattached accessories by listing the line item on your order.

Fabricated & Custom Products

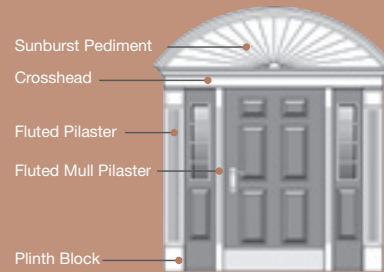

Throughout this section, you will see fabricated products with attached accessories that have specific part numbers. To order a fabricated product shown in this catalog, place your order using the part number shown. Additional fabricated options may be available, including additional sizes and routing options. To request a fabricated product not shown in this catalog – or to request a unique custom product design – please fill out our Quote Request Form, which can be obtained at www.fypon.com/products/custom.asp, or contact the Fypon Custom Product Sales Department at 855.397.6647 or the Fypon Customer Service Department at 800.446.3040.

Details, Details

Mouldings

Whether your project calls for delicate Florentine trim, massive cornice mouldings, or anything in between, we offer a variety of beautiful options that range from simple to ornate. Our portfolio of tasteful, inspired styles is available in a range of sizes and combinations, so you can boost a home's character — and the homeowner's satisfaction. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: MLD612-12, MLD215-12, MLD603-8, CM13EA, FLT159-12, PIL10X96HC

How to Use This Section

The products in this section of the catalog are organized by architectural style. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groups of mouldings are further sorted by height, from smallest to largest.

How to Order

Mouldings

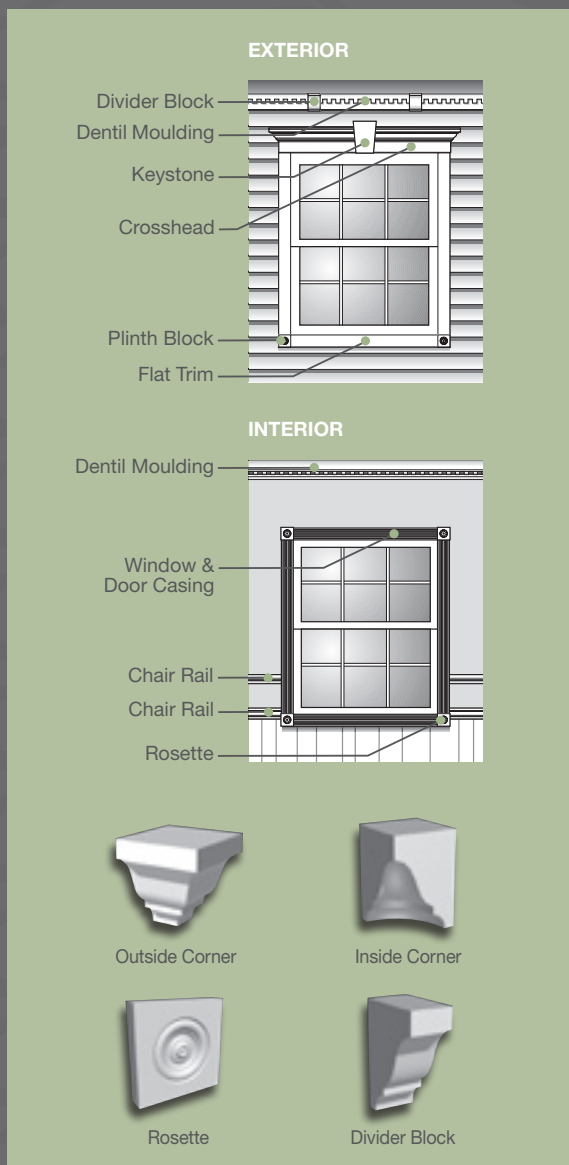

First choose the product that best fits your application. The large variety of sizes and styles can be applied to any home. Mouldings can be used individually or combined to create a new and distinctive look.

Moulding Accessories

The accessories shown here are available to help make moulding installations quick and easy. Inside and outside corners eliminate the hassle of figuring complex miter cuts. Divider blocks and rosettes can be used between moulding lengths to eliminate the need for patching to create smooth seams. All moulding accessories are unattached and must be ordered separately. Refer to page 98-99 for moulding accessories.

Custom Products

To request a unique custom product design, please contact the Fypon Custom Product Sales Department at 855.397.6647. You may also fill out our Quote Request Form, which can be obtained at www.fypon.com/products/custom.asp, or contact the Fypon Customer Service Department at 800.446.3040.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 200 to order Loctite® PL Premium® Adhesive.*

Table & Blade Angles

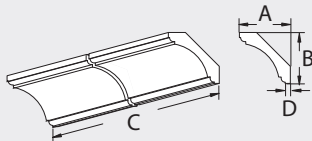

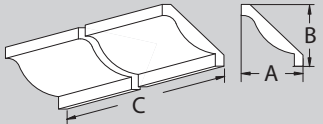

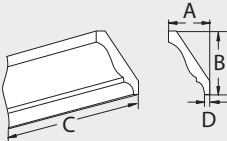

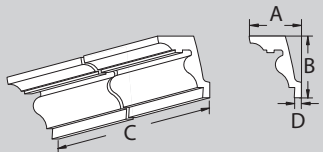

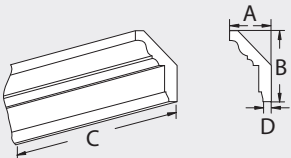

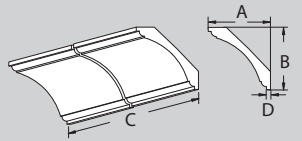

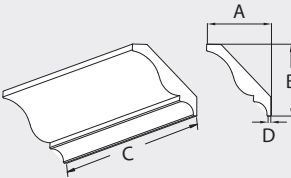

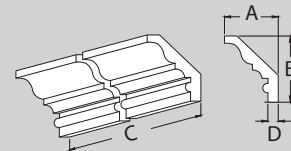

For recommended table and blade angles for mitering 90° corners, please visit the product support section at www.fypon.com.

* Loctite® PL Premium® is owned by Henkel Corporation.

Always consult the local building code authority to determine suitability of products to meet specific project requirements.

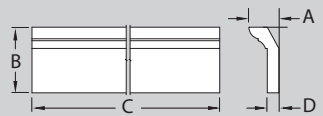

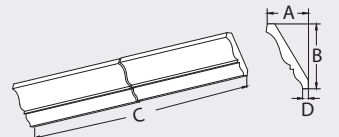

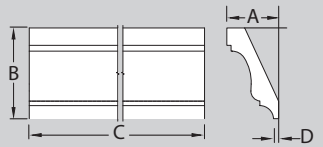

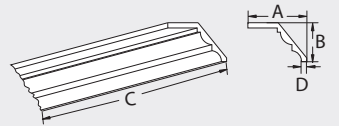

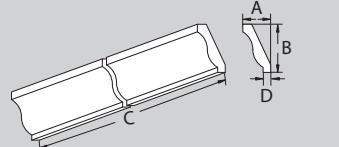

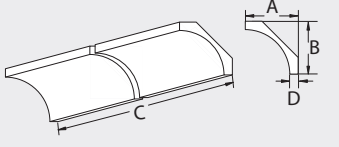

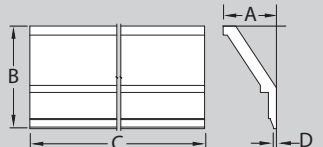

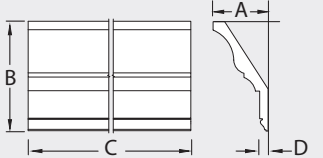

Fypon reserves the right to hollow out the back of any product without notice. This space is not intended to be used for blocking purposes. Some products may be made as assemblies. Images are representative of style, actual product will vary by size.

 The logo for FYPON features a stylized blue wave-like graphic to the left of the word "FYPON" in a bold, black, serif font.

Defining Design

Decorative Millwork

For the ultimate finishing touch, decorative millwork is the perfect choice for both interior and exterior applications. Fypon craftsmanship is evident in every exquisite detail. From brackets, corbels and gable pediments to niches, ceiling medallions and domes, our collection of architecturally accurate decorative millwork will expand your design possibilities for a room — or an entire home. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: BKT35X9, MLD522-16, CR75Y, COR5X10, WCH96X10BT

How to Use This Section

The products in this section of the catalog are organized by architectural style. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groupings of brackets, corbels and dentil blocks are further sorted by height, from smallest to largest.

How to Order

Decorative Millwork

The first step when ordering decorative millwork is to determine the type of product needed. Then find the proper size for your specific application by measuring the width and height.

Decorative Millwork Accessories

Some decorative millwork products have accessories available or are an accessory to another product. All decorative millwork accessories are unattached and must be ordered separately.

Custom Products

To request a unique custom product design, please contact the Fypon Custom Product Sales Department at 855.397.6647. You may also fill out our quote request form, which can be obtained at www.fypon.com/products/custom.asp, or contact the Fypon Customer Service Department at 800.446.3040.

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 200 to order Loctite® PL Premium® Adhesive.*

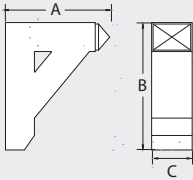

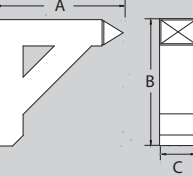

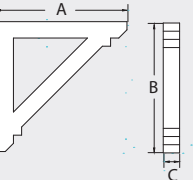

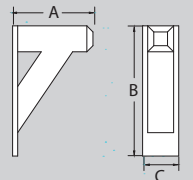

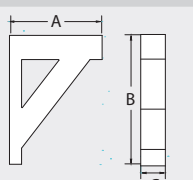

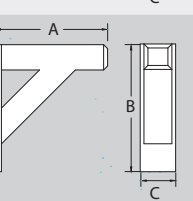

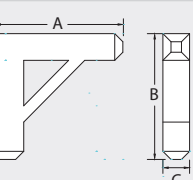

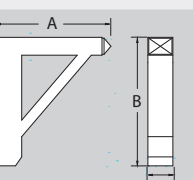

* Loctite® PL Premium® is owned by Henkel Corporation.

Always consult the local building code authority to determine suitability of products to meet specific project requirements.

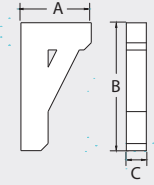

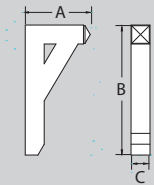

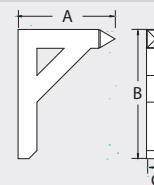

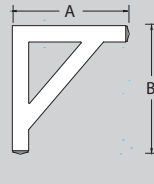

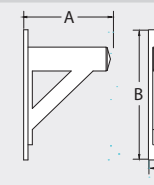

Fypon reserves the right to hollow out the back of any product without notice. This space is not intended to be used for blocking purposes. Some products may be made as assemblies. Images are representative of style, actual product will vary by size.

A Fresh Look

Louvers & Gable Vents

Louvers have been a useful design accent for centuries. For today's homes, Fypon offers an incredible variety of decorative (non-venting) and functional (venting) louvers to fit most architectural styles. Decorative louvers have a solid, one-piece design that does not allow air to pass through. Functional louvers are designed to provide additional ventilation, with angled slats to help protect interiors from the elements. The inside of the functional louver has a corrosion-resistant screen that helps keep insects out while allowing airflow between the slats. Accessory pieces, such as flat trim and keystones, are available for most louver styles to add another beautiful touch. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: Custom 6M Elliptical Arch, K6TM, MLD220-12, MLDS85308BP, EBLV18X30, WCH72X6K, MLDS85299BP

How to Use This Section

The products in this section of the catalog are organized by louver style followed by matching trim. Where applicable, matching keystones are referenced for each louver and trim piece.

How to Order

Louvers

The first step when ordering a louver is to find the proper size for your specific application by measuring the width and height. Then find the louver you need to order by locating your desired style with corresponding measurements on the following pages.

Functional Louvers**

If you are ordering a functional louver, you should order a louver that is approximately 2" larger than your rough opening on all sides of the louver. This will allow you to attach the louver to the substrate through the brick mould edge.

Louver Accessories

Keystones and trim are available pre-attached to standard products as fabricated items. Keystones and trim can also be ordered as unattached accessories by listing the matching part number as a separate line item on your order.

Fabricated & Custom Products

Some products shown in this section are available with fabricated options. This means one or more standard parts can be altered to create additional sizes, attach accessories or route a channel to accept siding. To request a fabricated product – or to request a unique custom product design – please fill out our Quote Request Form, which can be obtained at www.fypon.com/product/custom.asp, or contact the Fypon Custom Product Sales Department at 855.397.6647 or the Fypon Customer Service Department at 800.446.3040.

The logo for FYPON, featuring the word "FYPON" in a bold, serif font. A stylized blue wave graphic is positioned between the "F" and "Y".

FYPON

A photograph of a white balustrade system installed on a red brick wall. The balustrade features a series of white balusters and a decorative top rail. A black lantern-style light fixture is mounted on a brick pillar to the left. The background shows a clear blue sky and some foliage.

Sophisticated Spaces

Balustrade Systems

Transform any ordinary porch, patio or balcony into an impressive outdoor living area with our balustrade systems. The distinctive styles and sizes available make these systems an eye-catching accent for many home designs. Fypon balustrades are made from corrosion-resistant parts that require little maintenance. Most fasteners remain totally hidden to provide a clean, classic appearance from any view. Made of the same durable polyurethane material featured in all our products, most balustrade parts are also structurally reinforced. For easy installation and ordering, complete systems are available with all the essential components. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: BTR12X96, BBR12X96, BAL6X24AY, NP12X48, PST13S13P

How to Use This Section

The products in this section of the catalog are organized by style and then size. Once you determine the style of balustrade system desired, you can find the right size for your project with all the parts and accessories needed to complete the system, conveniently grouped together.

How to Order

Balustrade Systems**

Fypon® smooth balustrades are available in three systems: 5", 7" and 12". This size designates the width of the top and bottom rail. In addition to these three sizes, we offer a stone-textured system, which has a 6" wide top and bottom rail.

Planning Your Layout

Balusters

If you are using baluster panels, determine how many of them you wish to use first, then fill in the remaining space between the panels and newels with balusters. The maximum center-to-center distance between panels, balusters and newels should not allow a 4" ball to pass through at any point.

For each baluster, we have noted a center spacing dimension. This is the maximum center-to-center distance between balusters that does not allow a 4" ball to pass through at any point. The number of balusters you need can be found by dividing the rail span, in inches, by the center spacing dimension shown under each part.

NOTE: When dividing gives you a fractional result, always round up to the next whole number as shown in the example.

Rail Installation Kits

Each rail section (span between two newel posts) will require two rail installation kits (BRK). Rail installation kits will connect both ends of one rail to a newel post, with the exception of BRK12ANGLBKT. This kit connects both ends of one section, requiring only one kit per section.

NOTE: Fypon rail installation kits will not work on stair applications. Top and bottom rails do not come pre-drilled.

Newel Posts

Each newel post will require one newel post installation kit (NPK) to anchor the base of the post, as well as any post tops, balls or trim collars desired.

Baluster Example

Ball →

3 15/16"

↑

Less Than 4"

BAL3X20CC –
Requires 5" on
center spacing

Rail Span ÷ Center Spacing =
No. of Balusters Needed

96" ÷ 5" = 19.2

(Round up to 20)

Remember to Order Adhesive

A urethane-based adhesive **must** be used on all joint surfaces. See page 200 to order Loctite® PL Premium® Adhesive.*

Balustrade System Accessories

Balustrade system accessories are available to help achieve your desired look. All balustrade accessories are unattached and must be ordered separately.

Columns and Porch Posts

A variety of structural post options are available to customize your balustrade system. Choose from structural porch posts or structural columns in the Porch Posts, Columns and Post Wrap section, beginning on page 182.

NOTE: When using porch posts with any railing system, make sure that the base height of the post can accommodate the overall height of your railing system.

Custom Products

To request a unique custom product design, please contact the Fypon Custom Product Sales Department at 855.397.6647. You may also fill out our Custom Quote Request Form, which can be obtained at www.fypon.com/products/custom.asp, or contact the Fypon Customer Service Department at 800.446.3040.

* Loctite® PL Premium® is owned by Henkel Corporation.

** Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Fypon reserves the right to hollow out the back of any product without notice. This space is not intended to be used for blocking purposes. Some products may be made as assemblies. Images are representative of style, actual product will vary by size.

Easy Elegance

Porch Posts, Columns & Wraps

Fypon® structural porch posts and columns provide the perfect combination of charm and strength. Our porch posts and columns are designed to be beautiful, as well as durable, with high-density polyurethane construction and structural reinforcement. And if you've already met the structural requirements of your project, Fypon decorative wraps can add a refined finishing touch. They install easily around an existing structural support, so you can add the appeal of decorative porch posts and columns near the end of your project. **For installation and finishing instructions, please visit www.fypon.com.**

Products shown: COL8X96FBTSQ, MLD452-8, MLD627-16, #85042,

How to Use This Section

The products in this section of the catalog are organized by style. Where applicable, matching caps and bases are shown with the product.

How to Order

The first step is to determine whether you need load-bearing porch posts and columns, or a decorative wrap to conceal an existing structural post.

Structural Porch Posts & Columns**

Structural porch posts and columns are reinforced and have load-bearing capacities as noted. Installation hardware is included for easy ordering. Simply choose the style of column or porch post desired in a height that is equal to or slightly larger than the required height. Porch posts and columns can be trimmed to various lengths without affecting load rating. Be sure to order the appropriate quantity of porch posts and columns to adequately support the weight of the load they will carry.

Remember to Order Adhesive

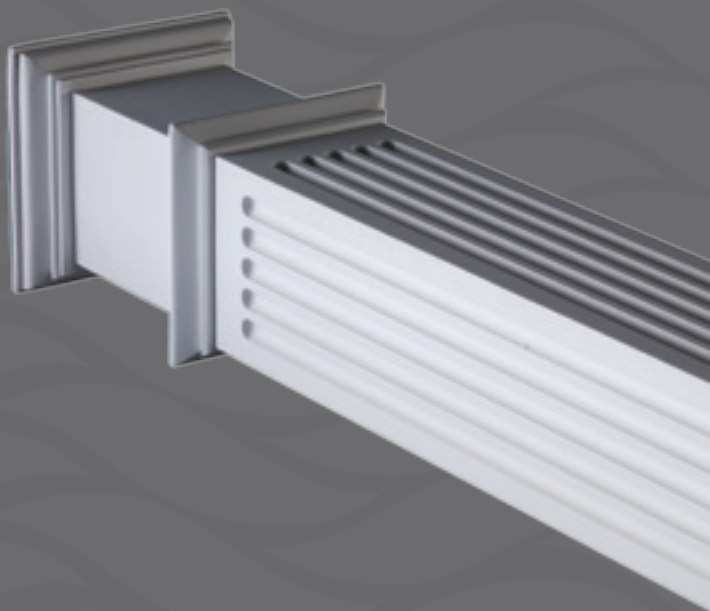

A urethane-based adhesive **must** be used on all joint surfaces. See page 200 to order Loctite® PL Premium® Adhesive.*

Decorative Wraps

Decorative wraps are non-structural and simply wrap an existing 4" x 4" treated wood post or other structural support. The decorative post wrap shown in this section is a 2-piece kit that includes 3-sided wrap and backer. We also carry a full line of PVC column wraps. For our PVC Catalog, please visit www.fypon.com.

Column & Wrap Accessories

Caps and bases are available as decorative accessories to help you achieve your desired look. These accessories are unattached and must be ordered separately.

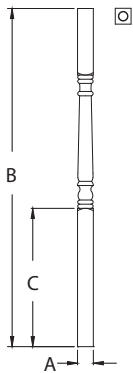

* Loctite® PL Premium® is owned by Henkel Corporation.

** Always consult the local building code authority to determine suitability of products to meet specific project requirements.

Fypon reserves the right to hollow out the back of any product without notice. This space is not intended to be used for blocking purposes. Some products may be made as assemblies. Images are representative of style, actual product will vary by size.

Adhesive & Finishing

A urethane-based adhesive such as Loctite® PL Premium® Construction Adhesive* must be used on all joints when installing urethane products. This will minimize the effects of expansion and contraction on the product. For additional information on adhesives, detailed installation instructions and finishing information, please visit www.fypon.com.

Loctite® PL Premium® Adhesive

	Part Number	Description
	ADH1 Loctite PL Premium Adhesive	(1) 10.2 oz. Cartridge

Material Comparison

	Fypon® Urethane	Wood	Composite
May Be Placed Against Masonry	YES	NO	NO
Above-Grade Distance Requirement**	0"	8"	6"
Water Absorption	NO	YES	YES
Insect Resistant	YES	NO	NO
Moisture Resistant	YES	NO	NO
Pre-Drilling Required When Edge Nailing	NO	YES	YES
Requires Sanding, Priming & Sealing	NO	YES	YES
Painting (Number of Coats Needed)	1	2	2
Quality	Consistent quality, no waste; consistent finish	Natural variation; must be culled	
Versatility**	Suitable options for interior or exterior application	Different grade of material and finish required for outdoor use	

Finishing Touches

Primer Color Match Available at Sherwin-Williams

To better service our customers nationwide, we have worked with Sherwin-Williams® to formulate a color and sheen match for our factory-applied primer.

Fypon® White:

Resilience™ Exterior Latex
Product # K42W51
Sheen: Flat
Base: Extra White
No colorant needs to be added to the formula.

Fypon® Oatmeal:

Resilience™ Exterior Latex
Product # K43W53
Sheen: Satin
Base: Deep Base
Quart and gallon formulas are shown below.

Quart Formula

W1 – White 4/32, 1/64
B1 – Black 7/32, 1/64, 1/128
R2 – Maroon 4/32
Y3 – Deep Gold 15/32, 1/64, 1/128

Gallon Formula

W1 – White 18/32
B1 – Black 31/32, 1/128
R2 – Maroon 15/32, 1/64
Y3 – Deep Gold 63/32
