

Euroview 70DS Tilt/Turn Windows

Euroview 70DS* is a commercial grade window system that utilizes all the benefits of PVC while satisfying both commercial and residential window requirements.

With its European engineering, the Euroview system is among the highest performing windows on the market today providing strength, durability and worry-free maintenance. Environmental advantages include high thermal insulation values which lead to cost savings and reduced energy use.

VENTANA USA®

Features & Benefits

1. Slightly rounded edges give the Euroview System its classical design.
2. High thermal insulation values up to U-Value 0.176 BTU/H*ft²*F, R-Value 5.7 are achievable (depending on glazing) and noticeably reduce energy costs.
3. High-quality gaskets are standard in an attractive grey or black and comprise a system of dual compression seals that keep the cold, draft and moisture outside.
4. Galvanized steel reinforcing used according to manufacturer's fabrication requirements, supports the structural integrity and operational reliability.
5. 5-chamber profile with a basic overall depth of 2-3/4" (70 mm) is an ideal use of dead air's natural insulating characteristics.
6. Glazing beads available to accommodate IG sizes from 3/4" to 1-1/2".
7. Build-up profiles, extensions, window sill connections, wall connections, couplings, special reinforcing, ventilation, and more are available.
8. ENERGY STAR® qualified.
9. Sound transmission control per AAMA 1801-97.
10. Available in white, tan, clay, woodgrain and colored finishes (laminated and painted).

Tilt/Turn, Hopper and Awning Windows

The Euroview 70DS window is designed to provide ventilation, security, emergency egress and easy cleaning from inside. Turn the handle 180° and it tilts in at the top to a secure position, turn the handle 90° and it swings in as a traditional casement. The specialized hardware also allows for hopper and awning operation.

Realize your creativity, you aren't limited. Use white or colorful profiles, add distinguishing details such as grids, choose special shapes such as circle tops, triangles or gable tops. Select from many options to complement your individual style.

Architectural Shapes

To enhance the aesthetics and functionality of any building, custom shaped windows, skylights and decorative windows can be implemented for design and style. A sampling of typical fixed and operable Euroview window configurations is illustrated below. Availability is not limited to those shown, consult your dealer for details.

Colors and Woodgrains

A wide variety of other colors and laminates are available. Please consult your sales representative for details and actual color samples.
